

Mabrun SS14

By Tammy Duffy

The Mabrun jacket began in 1936, as a craft-workshop that produced leather clothing and accessories. The quality of Mabrun has established itself as a leading company in the industry. This collection reworks classic styles, like an artist restoring a painting, to bring their signature timeless designs into the now. These designer jackets seen in the collections feature contemporary fits and thick luxury leather to be instantly season ready. The soft leather jackets and coats have a timeless appeal, infused with contemporary design for a polished, trend-led aesthetic.
