

**Review of Holly Fulton F14 RTW
By Tammy DUFFY**

Fulton stays true to form in this collection of clingy shifts, layered looks, and artistically created iconography. Many of the pieces resemble a walking piece of art deco. Her use of mixed patterns creates a silhouette that is playful and yet, sometimes awkward. The overcoats in the collection are a must have for this fall. Her coats have sleek silhouettes and uncharacteristic geometric patterns that are seductive for the season.
