

## **DUFFY Fashion Designs Launches High Performance Athletic Wear**

*DUFFY, popular manufacturer of women's couture has launched a new line that allows art to meet athletic function. DUFFY has introduced its own collection of high performance athletic socks and arm warmers for the athlete and non-athlete.*

NY,NY ([PRWEB](#)) April 24, 2013 -- DUFFY, popular manufacturer of women's couture, has launched a new athletic line that allows art to meet athletic function. DUFFY has introduced its own collection of high performance athletic socks and arm warmers for the athlete and non-athlete. The socks are available in 2 colors, black and white. DUFFY uses 6 unique materials to meet every comfort and durability need and desire in the socks. Demanding sports and activities require technology to help athletes perform at their best. Wicking away moisture is of primary importance to keep athletes feet dry and comfortable. Breathability is also crucial to keep athletes feet cool on the hottest days. DUFFY's socks are reinforced with durable fabrics in the heel and toe. The cuffs are interwoven with Lycra so the socks keep their shape and always stay in place regardless of the activity. Natural and synthetic fibers are combined to manufacture the best DUFFY High Performance Athletic Socks that are longer lasting and more comfortable than anything athletes have ever worn.

### **SIZING:**

SIZES	Men's	Womens	Shoes	EURO SHOES
SMALL		5-8		35-39.5
MED	8.5-10.5			40-42.5
LARGE		11-13		43-45.5
XLARGE		13+		46+

DUFFY performance arm warmers are also now offered by DUFFY in bamboo (black arm warmer) and recycled plastic with an SPF of 50 (white arm warmer). Bamboo offers many benefits to the athlete; excellent moisture management and a soft yet durable finish. The environmental benefits of this wonderful plant also include absorbing five times the amount of carbon dioxide and producing 35% more O<sub>2</sub> than trees. It is easily harvested without the need for replanting or pesticides, herbicides, or fertilizers. These DUFFY Arm warmers have DUFFY's abstract art designs integrated into the arm warmers as well. This makes them super unique.

DUFFY introduces a new blend of Invista™ Fibers to create a material for the DUFFY white arm warmers. The white arm warmer is made from 100% recycled plastic. DUFFY arm warmers are available in sizes.

The new Collection is available for purchase online at: (also call DUFFY at 646 717 7494)
